FINANCIAL SETTLEMENTS MADE EASY

Trimble Forestry's collaborative cloud solution CFBusiness puts all fibre supply and settlements data in one place. With easy load data integration from CFXchange, operational dashboard, company and contract management, settlement processing, settlement dashboard, and reporting/analysis tools forest owners, contractors and mills will have easy access to ticket data as well as real-time settlements information. CFBusiness extends the visibility of ticket information from CFXchange and adds the financial component that can be shared with stakeholders.

OPERATIONAL DASHBOARD

A user defined landing page enables the user to review key financial metrics to gauge the health of the business and report performance against budgets and forecasts.

REAL-TIME TICKET DATA

Ticket data can be imported from CFXchange in real-time, no more waiting for suppliers and customers to send in data.

COMPANY AND CONTRACT MANAGEMENT

Manage information related to business partner companies as well as their contracts. Flexible contract rate schedules and system rates are available to manage payments.

SETTLEMENT PROCESSING

The Settlements Dashboard makes settlement processing a snap with guidance through the various steps. Clear messages are provided about ticket issues to enable quick resolution and completion of the process.

DATA EXPORT

All data in the system can be exported to Excel formats for easy reporting and in-depth analysis.

REPORTING

CFBusiness delivers full function grids and user defined layouts. A powerful report designer delivers multi-dimensional reports and charts for data summarization and analysis of historical and real-time data.

INDUSTRY COLLABORATION

Settlements data can be securely published to stakeholders without having to manually print and send. Full payment detail documents can be sent to other companies to access via CFXchange.
