

Forestry User Conference

May 24 - May 26, 2023

Sonesta Nashville Airport Hotel, Nashville, TN

We're looking forward to hosting you at our Trimble Forestry User Conference (TF-UC2023) in May.

We're proud to offer the Connected Forest™ by Trimble at TF-UC2023, as well as share first looks of a few projects we've been working on. We'll bring together our product portfolio, recent learnings by our clients and offer over 20 sessions across a broad range of topics, so you'll have plenty of opportunity to learn about best practices and exciting innovations within the Forest Industry.

If you're eager to advance your knowledge to understand the benefits of Trimble solutions, and learn from others with many years of experience, this conference is for you!

+ Sessions and Training

- Introductory and advanced user sessions
- New features for improved productivity
- User community presentations
- Training sessions

+ Hands-On Lab Environments

This is your opportunity to spend time in a lab environment with our software engineers, ask questions and receive feedback on techniques. Whether you're just getting started with Trimble solutions or keen to become more efficient, you'll be able to get hands-on with our product offerings.

+ Networking

As many who have attended our previous conferences can attest, the many conversations and opportunities to share knowledge with peers at the conference is invaluable. In addition to the scheduled sessions, there will be plenty of time to meet with peers informally during the day or evening.

Reservations & Registration

Early Bird (Before May 1)

\$379.00

Per Person

Conference Rate

\$429.00

Per Person

The fee covers all expenses within the context of the conference program, including; seminars, meals, receptions and entertainment. The conference fee does not cover travel-related expenses and accommodations.
